

CONCERNED ABOUT ALLERGENS?

This guide is provided to enable you to make your own decision on menu choice. We cannot recommend or tell you what is suitable for you to eat. The descriptions on our menus do not include all ingredients or allergens – always check the allergen guide to identify suitable dishes.

The information in this allergen guide is based on recipe information and supplier specifications. Please be aware that this allergen information is subject to change so **make sure that you check it each time you visit and inform a team member of your allergy dietary requirements every time you dine with us (before you place your order), even if you have eaten the dish before.** That way, we can ensure that extra care is taken when preparing your meal to help prevent allergen cross-contamination.

Standard garnishes and accompaniments are included, unless specified. Items that are added as a self selection, choice or trade-up must be reviewed and added to the base information.

We review and republish the allergen data available to us regularly but the circumstances in which a product is made, packaged, stored and distributed may change without our knowledge.

CROSS-CONTAMINATION:

Within our kitchens we handle food products containing peanuts, tree nuts, sesame, fish, egg, molluscs, crustaceans, milk, cereals containing gluten, celery, soya, mustard, sulphites, lupin and derivatives of these allergens. It is impossible to fully guarantee separation of these allergens at all times from other ingredients in storage, preparation or cooking. All dishes are prepared in areas where allergens are present therefore there is a risk that ingredients used in your meal may have accidentally come into contact with an undeclared allergen (including tree nuts and peanuts) at any point in time, leading to cross-contamination.

Cooking equipment (e.g. fryers, grills etc) and food preparation areas may be shared and fried items containing different allergens may be cooked in the same frying oil. Please ask a team member if you would like further information on our cooking methods and policy.

If you are concerned about allergen cross-contamination of the food you wish to eat, please inform a team member who **may also be able to show you the packaging of the product, and any 'may contain' warnings that the supplier has provided.**

As part of the new legislation on The Provision of Food Information to Consumers, Regulation EU 1169/2011, **we will only highlight allergenic ingredients if they are intentionally added to a product.**

NUTS:

'Tree Nuts' in the guide refers to the species of nuts defined as tree nut allergens, namely Almonds, Brazils, Cashews, Hazelnuts, Macadamias (Queensland Nuts), Pecans, Pistachios and Walnuts only, and products thereof. For identification of the specific type(s) of tree nut present, please request to see the product label / recipe.

If you are allergic to PEANUTS, these are listed separately to tree nuts on the guide.

If you are allergic to, or avoiding any other nuts or ingredients such as water chestnuts, sweet chestnuts, coconut, pine nuts, these are not covered by the guide. Please let us know and we will try to assist you.

CEREALS AND GLUTEN:

The information in our allergen guide relating to 'cereals containing gluten' is applicable to wheat, rye, barley, oats, spelt, kamut, their hybridised strains and products thereof. For identification of the specific cereal(s) containing the gluten, please request to see the product label / recipe.

We hope that you enjoy your meal!

Breakfast	Allergens
RSPTN LN16 Bap Bacon & Egg / Recipe.680795	Contains: Eggs, Cereals Containing Gluten, Milk.
RSPTN LN16 Bap Veggie Sausage & Egg / Recipe.680797	Contains: Eggs, Cereals Containing Gluten, Milk, Soya.
